

JUVENILE ARRESTS

The 2002 juvenile arrest rate of 53.8 per 1,000 is the lowest reported for Washington State since prior to 1980.

Arrest data contained in the following pages were provided by the Washington Uniform Crime Reporting (WUCR) program of the Washington Association of Sheriffs and Police Chiefs. The information is reported by individual law enforcement agencies, collected and categorized by WUCR. Staff of the Governor's Juvenile Justice Advisory Committee (GJJAC) provided the analysis and summary.

Arrests shown on the following tables actually underreport the number of juveniles arrested; these numbers have not been adjusted by subtracting the population of police jurisdictions that did not report arrest data to UCR. The figures of arrests do not represent every juvenile arrest made during the year, but reflect the information that was reported by the arresting agencies.

Available reports for 2002 represent approximately 92 percent of the state's juvenile population, a decrease from 1998 to 2001, when the percentages of the population represented was from 94 to 96 percent. However, the percentage of the juvenile population represented in recent years is a substantial increase from prior years--available reports for 1997 accounted for about 86 percent of the state's juvenile population, while reports for 1995-1996 accounted for approximately 84 percent.

Rates for the various categories of offenses are based on the population of juveniles age 10 through 17. There were 38,073 juvenile arrests reported in 2002. This figure represents an arrest rate of 53.8 for every thousand juveniles in the state age 10 through 17, a 14 percent decrease from the 2001 rate of 62.3. The 2002 juvenile arrest rate is the lowest reported for Washington State since prior to 1982, and has decreased by 40 percent from 1993 to 2002.

From 1985 to 1988, the arrest rate for juveniles age 10-17 remained fairly steady at approximately 90 per 1,000. The rate decreased in the 1989-1990 period to about 86 per 1,000, and for the years, 1991-1992, the rates were approximately 92 per 1,000. The juvenile arrest rate for 1993 was 90.1, and increased to a high of 94.9 in 1994.

Arrest data for 2002 include 330 juveniles under the age of 10 (representing less than one percent of the total juvenile arrests). There was an eight percent decrease in the number of youth arrested under the age of 10 years, from 2001 to 2002.

.....

COMPARING JUVENILE AND ADULT ARRESTS

When comparing arrests for adults and juveniles in Washington State in 2002, juveniles comprised 16 percent of the total number of arrests statewide, a decrease from 17 percent in 2001.

Adults continue to represent a significantly larger proportion of the arrests for drug and alcohol offenses (89 percent) than juveniles (11 percent).

Juveniles continue to make up a greater proportion of property crimes, comparatively, than other arrest categories when compared to adults (31 percent for juveniles, compared to 69 percent for adults).

Juveniles continued to represent less than one-fifth (20 percent) of the total arrests for violent crimes in 2002.

.....

The juvenile arrest rate for violent offenses has decreased (by 16 percent) from 2001 to 2002. The rate of arrests for violent offenses was 2.1 per 1,000 juveniles age 10-17 in 2002—the lowest rate reported since prior to 1982, when the rate was 2.7 per 1,000 juveniles. There was a 36 percent decrease in the violent crime arrest rate from 1997 to 2002.

It must be taken into account when looking at violent offense trends, that beginning in 1994, the method of accounting for assaults in the Seattle Police Department changed—12 classifications of assaults which were previously categorized as "violent offenses" are now categorized as "other offenses" from 1995 forward. Data in this report do not historically adjust for this change.

The 1,484 arrests of juveniles for violent crimes in 2002 breakdown as follows:

- 13 arrests for murder or manslaughter.
- 172 arrests for rape.
- 894 arrests for aggravated assault.
- 405 arrests for robbery.

Three of the above four violent offense categories (see also Table 43) show a decrease from 2001 to 2002 in the rates per 1,000 juveniles age 10-17: a 33 percent decrease in murder or manslaughter; a 19 percent decrease in robbery; and a 19 percent decrease for aggravated assaults (no change for rape).

In 2002, 13 counties had a violent offense rate above the statewide average; Lewis County had the highest reported juvenile violent crime rate—4.0 per 1,000 juveniles age 10-17.

JUVENILE ARRESTS FOR OTHER OFFENSES

Larceny has continued to represent the offense for which youth were most often arrested.

The rate of juvenile arrests for property crimes has continued to decline since 1994. The 2002 rate of 22.6 per 1,000 youth age 10-17 is the lowest reported rate for juvenile property offenses since prior to 1985. The rate of arrests decreased by 39 percent from 1997 to 2002, and by 11 percent from 2001 to 2002.

Larceny has continued to represent the offense for which youth were most often arrested. Larceny (theft) arrests comprised 59 percent of the property crimes in 2002, little change from 58 percent of the total juvenile property crimes in 2001. Approximately 15 percent of the arrests for property crimes were for vandalism, and about 13 percent were for burglary in 2002.

The arrest rate for sex offenses has remained at 0.5 per 1,000 juveniles age 10-17 for a 5-year period (1998 to 2002). This rate is a slight decrease from the rate reported in 1996 of 0.6 percent.

In 2002, the rate of juvenile arrests for drug and alcohol offenses was 11.4 per 1,000 juveniles age 10-17. This represents a decrease of 9 percent in the rate from 2001 to 2002. The 2002 rate is consistent with rates for juvenile drug and alcohol offenses from 1994-1995.

Within the drug and alcohol offense category, a much higher proportion of juveniles are arrested for alcohol offenses than for drug offenses. In 2002, drug offenses comprised 38 percent and alcohol offenses comprised 62 percent of all juvenile drug and alcohol arrests. The majority of all juvenile arrests for drug offenses were for “possession” (86 percent in 2002).

.

JUVENILE ARRESTS BY COUNTY

The arrest rates for counties with very small juvenile populations (such as Columbia, Garfield, and Wahkiakum) may be distorted, because changes of a few arrests can change the rates dramatically.

When the 39 counties are ranked by arrest rates in 2002, the five largest counties rank: King (33rd); Pierce (29th); Snohomish (27th), Spokane (37th, due to significant under-reporting), and Clark (24th).

In 2002, counties, with juvenile populations age 10-17 over 5,000, with an arrest rate above the statewide average of 53.8 per 1,000 juveniles age 10-17 in 2002, include: Benton, Chelan, Clallam, Clark, Cowlitz, Franklin, Grant, Grays Harbor, Lewis, Okanogan, Skagit, Thurston, Walla Walla, Whatcom, and Yakima.

In 2002, five counties (Adams, Asotin, Benton, Garfield and Klickitat) had a juvenile arrest rate that was more than twice the statewide average per 1,000 youth for total arrests. Nine counties had arrest rates that

**JUVENILE
ARRESTS
BY COUNTY
(continued)**

**JUVENILE ARRESTS
BY RACE
AND ETHNICITY**

were more than twice the statewide average for arrests for drug and alcohol offenses in 2002: Adams, Asotin, Clallam, Columbia, Garfield, Grant, Grays Harbor, Klickitat and Pend Oreille.

Arrest rates of individual agencies continue to show that sheriffs' departments tend to have lower rates of arrests than do the police departments of incorporated towns and cities.

.

The racial distribution of total juvenile arrests for 2002 showed that 85 percent were White, 10 percent were Black, 3 percent were American Indian, and 3 percent were Asian youth. This represents an increase in the Black population, and a decrease in the American Indian population, from the 2001 racial distribution for total juvenile arrests.

Percentage of Total Juvenile Arrests by Race							
	1996	1997	1998	1999	2000	2001	2002
White	82	83	83	84	84	85	85
Black	11	10	10	9	9	9	10
American Indian	3	3	3	3	3	4	3
Asian/Pacific Islander	4	3	4	3	3	3	3

*Note: Race proportions include persons of Hispanic origin. Persons of Hispanic origin can be of any race

Arrest rates for **violent offenses** by race in 2002 show the following:

	WHITE	BLACK	AMERICA N INDIAN	ASIAN & PACIFIC ISLANDER
% of Population Age 0-17	75.8	3.9	2.1	5.6
% of Arrests				
Homicide/Manslaughter	76.9	15.4	7.7	0
Rape	82.5	13.4	2.9	1.2
Robbery	54.3	38.5	1.5	5.7
Aggravated Assault*	80.0	12.2	3.4	4.4

* Beginning in 1994 the method of accounting for assaults in Seattle P.D. changed. Prior data included 12 classifications of assaults, which are now categorized as "other offenses."

Note: 2000 Census data racial categories do not correspond to the above four distinct categories; hence, the above four categories do not total 100%. See data Table 9 for census 2000.

.

JUVENILE ARRESTS BY GENDER

Girls are accounting for an increasingly higher proportion of juvenile arrests.

Girls are continuing to account for an increasingly higher proportion of juvenile arrests, particularly for drug and alcohol offenses, and in the “all other offenses” category. In 2002, females accounted for 29 percent of the total juvenile arrests. The percentage of total juvenile arrests committed by females has increased by 11 percent from 1996 to 2002. In comparison, the percentage of total arrests committed by males has decreased by four percent from 1996 to 2002.

During 2002 females accounted for approximately:

- 29 percent of all juvenile arrests (an increase from 2001).
- 28 percent of all juvenile arrests for drug and alcohol offenses (a decrease from 2001).
- 30 percent of all juvenile arrests for property offenses (no change from 2001).
- 18 percent of all juvenile arrests for violent offenses (an increase from 2001).
- 29 percent of all juvenile arrests for all other offenses (an increase from 2001).

Arrests of females for violent offenses accounted for approximately 15 percent of the total juvenile violent arrests in 2001, and increased to 18 percent of the total violent arrests committed in 2002. The percentage of total arrests of females has remained fairly constant for property crimes from 1996 to 2002, at 28 to 30 percent of total arrests.

In 2002, females accounted for approximately 28 percent of the total juvenile arrests for drug and alcohol offenses, a 14 percent increase from 1996. The percentage of total arrests for “all other offenses” committed by females has increased by 22 percent from 1996 to 2002.

AGENCY ARREST REPORT STATUS

Arrest data contained in the previous pages were provided by the Washington Uniform Crime Reporting (WUCR) program of the Washington Association of Sheriffs and Police Chiefs. This information is reported by individual law enforcement agencies.

The following agencies did not provide any monthly juvenile arrest information for 2002:

Albion P.D.	Kirkland P.D.
Airway Heights P.D.	Medical Lake P.D.
Coupeville P.D.	Oakesdale P.D.
Darrington P.D.	Oakville P.D.
Davenport P.D.	Roy P.D.
Federal Way P.D.	Spokane P.D.
Harrington P.D.	Tukwila P.D.
Ione P.D.	Uniontown P.D.
Island Co. S.O.	Warden P.D.
Kent P.D.	Woodway P.D.

Fife P.D. provided 6 months of juvenile arrests.
Kelso P.D. provided 4 months of juvenile arrests.

Dayton P.D.: Arrests are included in Columbia Co. S.O.

LaConner P.D.: Arrests are included in Skagit Co. S.O.

North Bonneville and Stevenson P.D.s : Arrests are included in Skamania Co. S.O.

Pomeroy P.D.: Arrests are included in Garfield Co. S.O

Roslyn P.D.: Arrests are included in Cle Elum P.D.

Waitsburg P.D.: Arrests are included in Walla Walla Co. S.O.

The following agencies are reporting their crime data in a WIBRS format. These agencies have met the requirements of reporting arrests. However, not all data are represented due to the fact that WIBRS is still in the developmental stages.

Mill Creek P.D.
Monroe P.D.
Oak Harbor P.D.
Pullman P.D.
